ABOUT US

With a vision to provide complete end-to-end project-based logistics solutions that start from financing projects and end with executing the same on a door-to-door basis. Prolog India is steered by highly experienced professionals with experience more than 20 years in the field of logistics.

Our team of motivated professionals also includes in-house dedicated employees who effectively manage and overlook the day-to-day custom clearance activities at all India's major air and sea ports. Having established its headquarters in Mumbai, India, the firm has a highly reliable network of agents, vendors, and partners worldwide that complement its capabilities. Owing to its focus and desire to cater to customers who need to move Over Size & Heavy Lift Cargoes from one country to another.

Prolog India has gained the title of being the most trusted service provider. Our organisation also caters to customers moving general air & ocean freight on a door-to-door basis and provides the services for inland transportation in India, ensuring complete control and reliable delivery of each shipment.

PLANT & MACHINERY

Logistics Consultation

If you are looking to import any capital goods or machinery, our team of experienced professionals is trained to help you with the following services-

- They will guide you on the various aspects of importing machinery.
- They will help you reduce the overall cost of the machine by using licences meant for the same.

Plant Relocations

If you are planning to purchase an entire plant from a different country, our team of experts will help you plan the entire activity in the following ways-

- They will be active participants in the pre-purchase meetings.
- They will help you estimate the total logistics cost of the plant relocation.
- Inputs on dismantling the machines to minimize the logistics expenditure will also be provided.

Logistics Estimation

If your requirement involves importing machinery to your factory and you are not sure about how much it would cost you to do the same, our team will help you create an estimate for the expenses-

- They will help you lay out an estimation of the total expenses that will be incurred for importing machines to your factory.
- To minimize the custom duty, they will give inputs on the various licences available.

License Registrations

If you require help with registering for licences, our team has got you covered in the following areas-

- IEC
- Advance Authorization
- EPCG
- EOU
- SEZ
- Project Registration
- Preferential Duty Benefit
- MEIS
- RoDTEP.

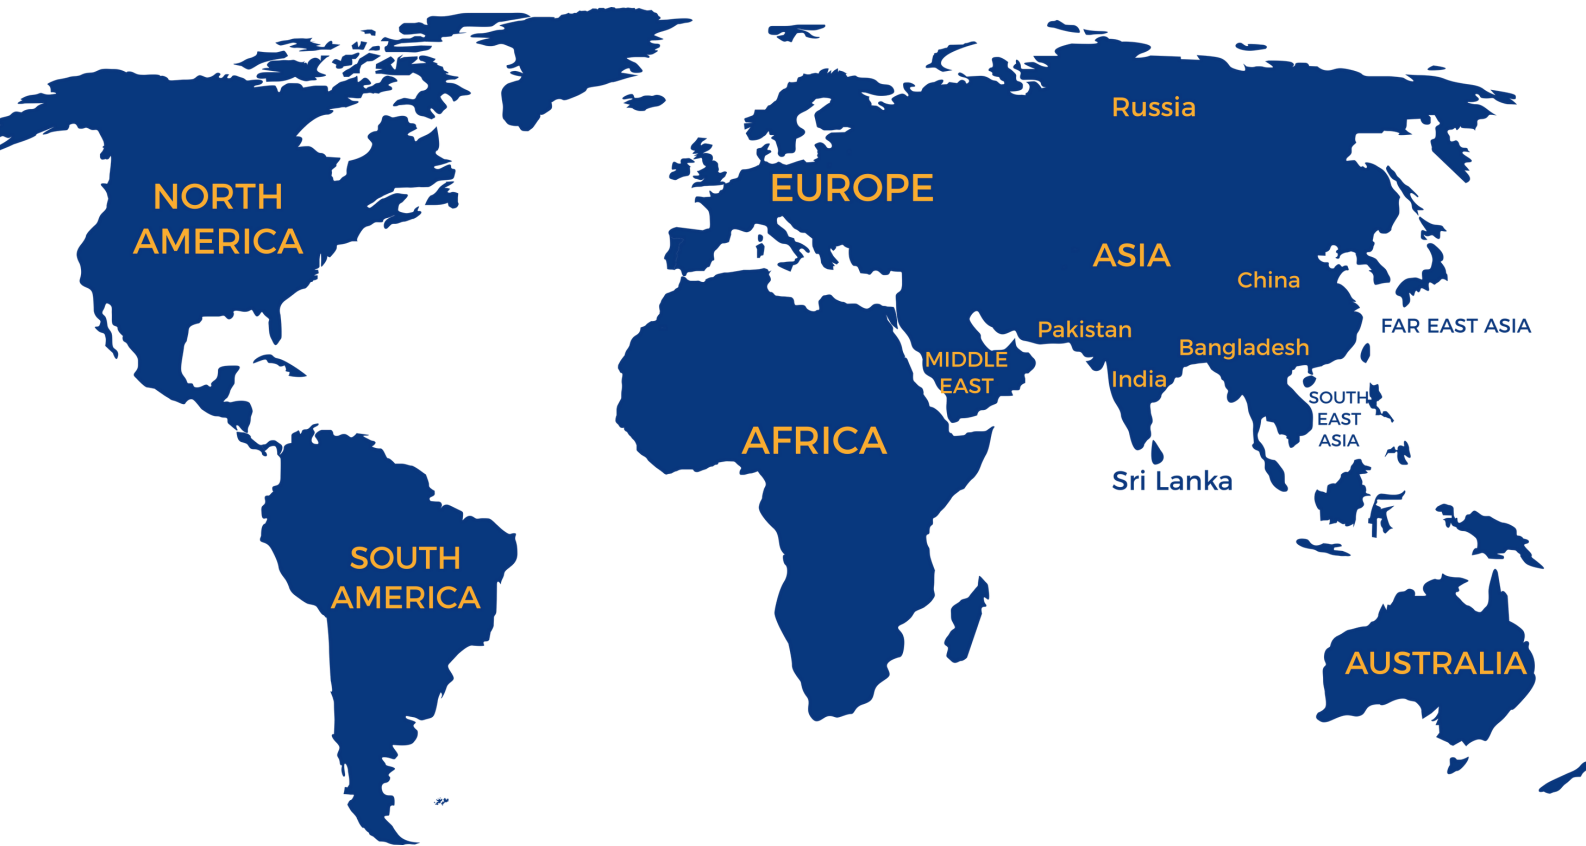

Project Planning & Expediting

We understand that the time involved in the completion of the project is directly proportional to the project's cost. Hence our team of experts will help you in project planning and ensuring the same is completed within the stipulated time. This will be achieved by ensuring the following-

- They will draft a proper plan of action for all the parties involved and monitor and coordinate closely with them to expedite the project's completion.
- They will actively partake in all the pre & post-purchase meetings and ensure all documentation work is completed in time to avoid detention and demurrages.
